

TERRAFRIGO PLANT

Russian manufacturer of heat exchange and refrigeration equipment.

17
year
experience

12 000+
completed
objects

17
countries

90+
dealers

We are focused on high work standards, use of modern technologies in production aimed at maximum meeting of customer's needs all over the world.

TerraFrigo plant — benefits in every corner of the world.

 High localization degree in industry in Russian Federation.

 Customers feedback: improving the quality of equipment and services, dealers and partners trainings.

 TerraFrigo business processes are certified according to the quality management system ISO 9001: 2015.

 Own modern production line and technical base.

TerraFrigo air conditioning kit

Standard place kit

2
year
warranty

Up to 4 seats

- 1 Condenser MFC, TFA
12x21, 14x23,
16x26, 18x26
- 2 Compressor
TerraFrigo 5H14,
TerraFrigo 5H11
- 3 Evaporator
capacity 4 kW

Fiat Ducato, Peugeot Boxer, Citroen Jumper,
Gazelle, Mercedes Sprinter, ISUZU, Gazon Next,
Gazelle Next, Hyundai.

Advantages of TerraFrigo air conditioners

Reliable and durable

A heat exchanger of own production
with a unique SFT technology —
reliable protection against
breakdowns and downtime.
**The heat exchanger is
protected from dust and stones.**

Operates 24/7

TerraFrigo air conditioners use
proprietary powerful compressors
that have proven their high
performance for many years.
High build quality.

2 year warranty

Quick gain and hold the set temperature

Even at peak loads.
Safe operation and easy control.
**Increased durability of all parts
of the air conditioner.**

Streamlined aerodynamic condenser housing

No additional fuel costs required
to overcome air resistance.
**Adapted for different
car models.**
